THE COMMONWEALTH BUREAU OF PASTURES AND FIELD CROPS

HURLEY, BERKSHIRE

OBJECT. The Commonwealth Bureau of Pastures and Field Crops is one of 11 Bureaux and 3 Institutes which together form the Commonwealth Agricultural Bureaux. The Bureau is located at The Grassland Research Institute, Hurley, and its object is to collect and abstract all published research results on annual field crops, pastures, herbage plants and rangelands, and to circulate these abstracts in its two quarterly journals *Field Crop Abstracts* and *Herbage Abstracts*. About 1000 periodicals and reports from all parts of the world are regularly scrutinized. A list of those examined together with their abbreviations was published in *Field Crop Abstracts* Volume 18, No. 4.

SCOPE. *Field Crop Abstracts* is concerned with all annual field crops grown for food, fodder, oil and fibre, and with tobacco and green manures. Subjects such as control of weeds, pests and diseases, land use, farming systems and agrometeorology are also considered but only in relation to these crops. For information on other aspects, e.g. plant breeding, soil science, biology of plant pests and diseases, reference should be made to the C.A.B. journals covering those subjects. For abstracts dealing with plantation crops, including sisal and sugar-cane, see *Horticultural Abstracts*.

SERVICES OFFERED. The Bureau can provide an extended abstract of any paper or article abstracted in this journal, should fuller information be required, and can supply the foreign title on request.

Photocopies of papers abstracted can be supplied at a cost of 2s. per page of text (post free).

The Bureau also undertakes the answering of enquiries and the preparation of bibliographies on subjects within its scope.

The Director is always pleased to receive comments on *Field Crop Abstracts* and any suggestions for its improvement.

NEW SUBSCRIPTION RATES

C.A.B. JOURNALS

The journals of the Commonwealth Agricultural Bureaux are heavily subsidized by contributing countries, and from 1967, the aggregate average annual contributions will be £711,000. Despite this subsidy, it has been necessary to increase the prices of the journals. Nevertheless even the full subscription will still be well below the cost of publication, and subscribers in contributing countries are allowed reduced subscription rates. The contributing countries are the United Kingdom of Great Britain and Northern Ireland, Canada, Australia, New Zealand, India, Pakistan, Ceylon, Ghana, Malaysia, Nigeria, Cyprus, Sierra Leone, Tanzania, Jamaica, Trinidad and Tobago, Uganda, Kenya, Malawi, Malta, Zambia, The Gambia, Rhodesia, Dependent Territories and the Republic of Ireland. Guyana has been invited to become a member. The new prices are set out below and will come into effect with the 1967 volumes.
